

**YOUR ADVERTISING CAMPAIGNS ARE CUTTING EDGE & POWERFUL
AND THEY ARE AS EASY AS 1-2-3**

PRESS RELEASES: A press release is the best way to get out news worthy, important or unique information about your business, organization or industry to the masses- we distribute through all the News Wire Services and data bases for distribution to all the major search engines, RSS Feeds, television, radio, daily, weekly newspapers and other print media- internationally. Specific states, regions and cities can also be targeted. Additionally we offer "hand delivery to hometown media."

You give us the "who, what, where and when" about your or your client and we take it from there:

1. Increase Credibility: You will be on all major search engines where media has the opportunity to print or broadcast your release, or contact you for more an article or information specific to their readership.
2. Increase Visibility: Increase online credibility - releases are distributed in alls the major media and search engines - increasing visibility and ranking
3. Add fresh content to your web site and your company portfolio.
4. Be visible to new client bases.

MEDIA EXPOSURE: Getting your message to media professionals, onto the desks of the journalists and to the top of news sites and search engines is of primary importance. Our clients had articles, write-ups and interviews in nearly every major and industry publication directly attributable to their exposure through our press release service.

EMPOWERING TECHNOLOGIES: Underlying all of our media solutions are remarkable technologies. Our development team is uniquely trained to delve deep into the web and search engines to constantly improve our methods of delivering your message online.

HUMAN TOUCH: Every piece of your content delivered via the web's media platform has been viewed, reviewed or edited by a live human being from service and editorial support so that your release has the best opportunity to reach your audience and the masses.

REAL RESULTS: Press releases are no longer shackled by the media departments of the major publications. With the internet, you can reach your viewers right where they work, research and shop: on the web

PRESS RELEASES - A press release is the to get out news worthy, important or unique information about your businesses and industry to the masses-we distribute to all Wire services and data bases for distribution to all major search engines, RSS feeds, television, radio, daily, weekly newspapers, and other print media. Specific states, regions and cities can also be targeted. Additionally, we offer "hand delivery to hometown media."

WEBPHOTOWIRE - Images in print. Your logo and brand at full-screen quality. PRWEB-Photowire makes this possible. More important, your images are web-optimized, tagged with social bookmarks, and crawled by the search engine spiders to ensure you're seen in your very best light. Linked to your press release, these images form yet one stickier bond between you and your audience.

WEBPODCAST - Your recorded interview about the press release submitted brings your release to life, through every high-value audio channel available. The podcast is a brief three to five minute telephone interview; special arrangements can be made for a longer interview. Then we post-produce, clean it up, tag and push it into the web and blogosphere. One of the very fastest growing media types in the world. Produced and distributed with the power of PRWEB.
